- The Garden Kitchen - a fully equipped catering kitchen
- Courtyard and outdoor seating
- Garage and separate workshop

Our History

Cortijo las Salinas is a villa of Roman origin with historical significance to the local area. Discovered as a ruin by it's previous owners, the property has been lovingly and thoughtfully restored to create the inspiring property we have today. Lately, used as a family home, previously the Cortijo has operated as a highly successful retreat centre, a venue for weddings and a fully booked holiday rental.

Owner's Accommodation

The owners accommodation can be a private 1 bedroom apartment or opened up into a three-bedroom house, depending on the needs of you and your guests. All bedrooms have their own bathroom and each opens onto beautiful outdoor space.

Guest rooms

With 14 bedrooms, which can be separated into 7 different apartments, the house offers many different accommodation configurations, suitable for family living or retreat hosting. All rooms have direct access to the outdoors and inspiring views of the surrounding countryside.

Teaching Spaces

The Cortijo's teaching facilities include both indoor and outdoor spaces, a dedicated meditation room, and a cypress tree circle overlooking the valley. Previous retreats have included wellness of many different kinds, e.g. yoga and meditation, walking and painting. Many weddings have also been held in this beautiful venue and over many years it also sold out as a popular Airbnb.
